

The FortiGate 3700D is a compact, high performance, ultra-low latency data center security appliance that delivers up to 160 Gbps firewall throughput.

High Performance Network Security

Fortinet was founded in 2000 by Ken Xie, the visionary founder and former president and CEO of NetScreen. A strong and seasoned management team with deep experience in network security leads the company today.

Year Founded: Oct 2000

First Product Release:
May 2002

Fortinet IPO: Nov 2009
NASDAQ: FTNT

Headquarters:
Sunnyvale, California

Number of Employees: 2,300+

FY 2012 Revenue: \$534M

Q3-2013 Revenue: \$155M

\$841M+ cash and no debt
Profitable

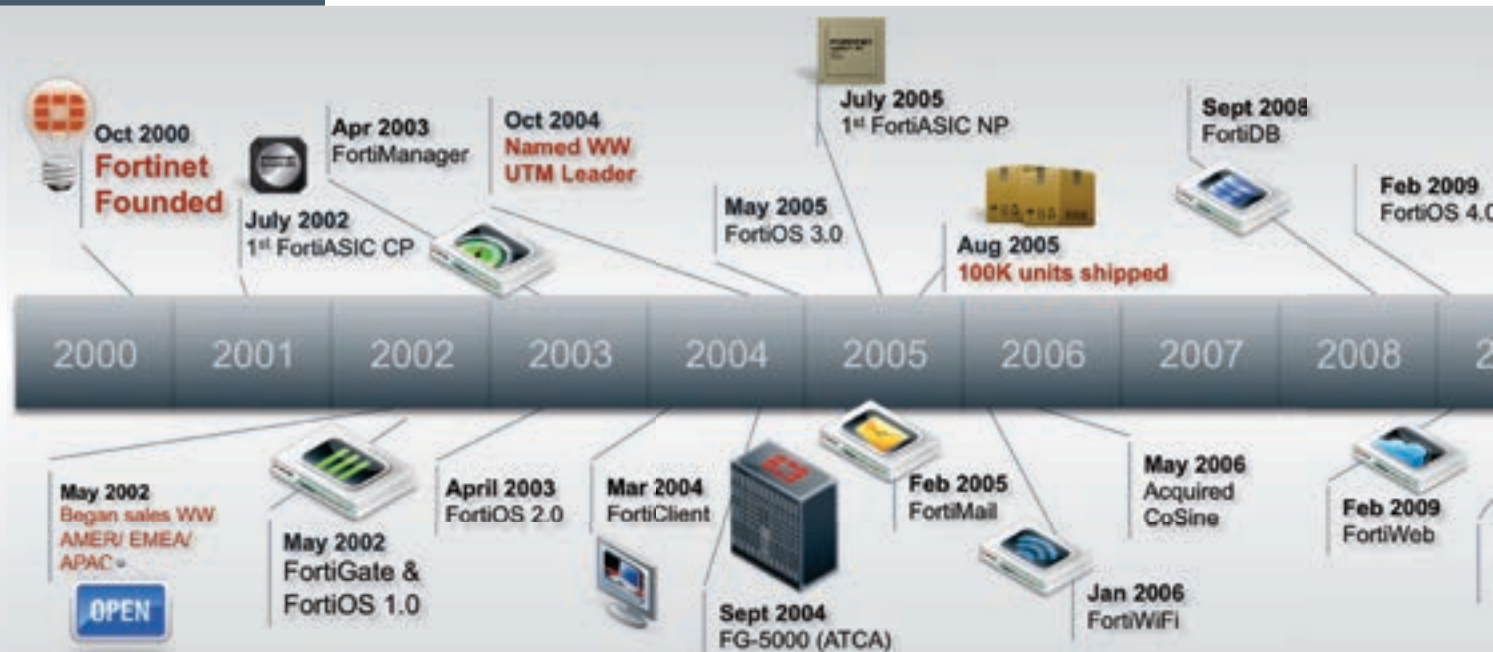

Units Shipped to Date:
1.3+ Million

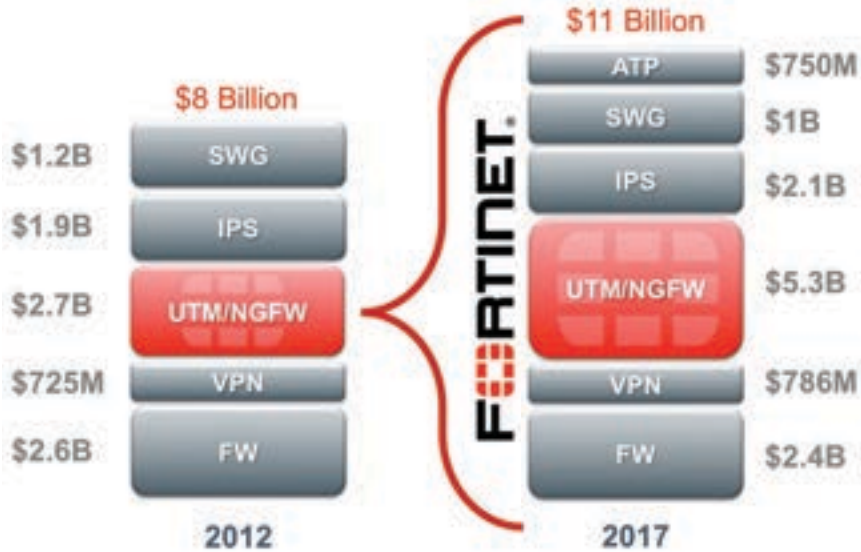

Customers:
170,000+ customers

Patents:
143 patents issued
108 patents pending

Overview

We are a leading global provider of Network Security Appliances for Carriers, Data Centers, Enterprises (NGFW) and Distributed Offices (UTM). Through constant innovation of in-house ASICs, hardware systems, network software, management capabilities and security research we have consistently outperformed the market.

IDC Worldwide Security Appliance Market Share Q2 2013⁽¹⁾

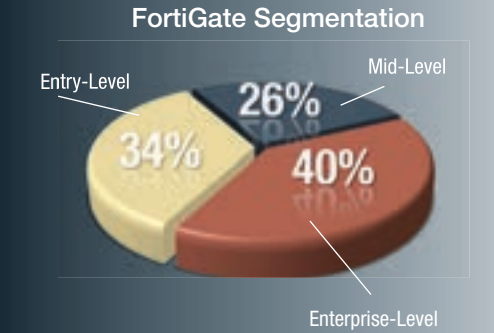

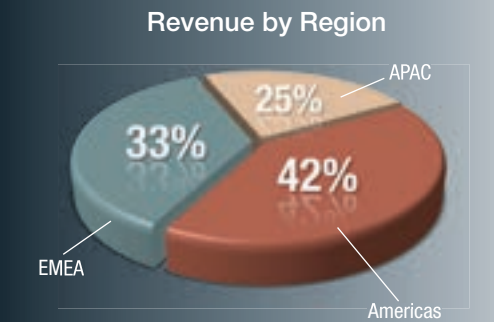

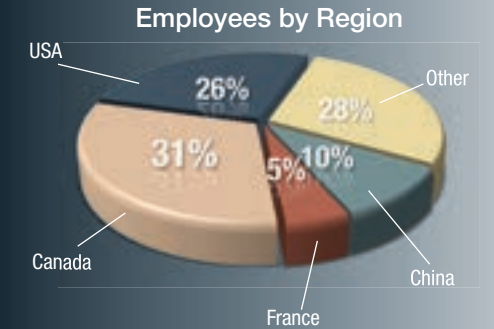

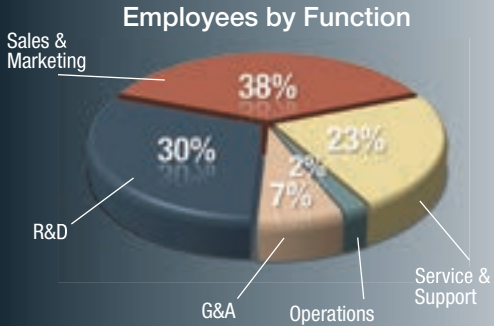

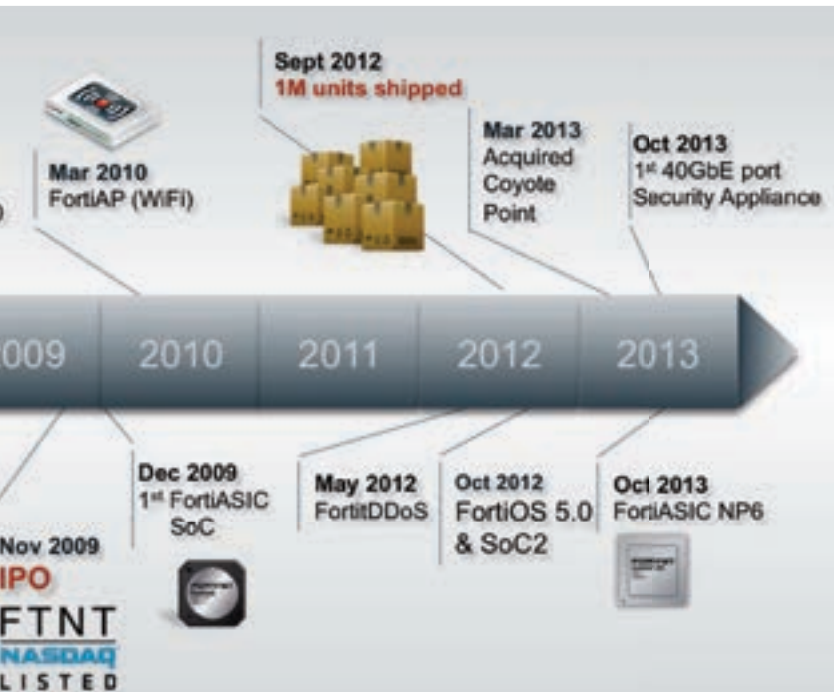

Rank	Company	Market Share %	Growth Y/Y

(1) IDC Worldwide Security Appliances Tracker, September 2013 (market share based on factory revenue)
(2) IDC: Worldwide Network Security 2013-2017 Forecast and 2012 Vendor Shares, June 2013. ATP is Fortinet estimate.

High Performance Features

The **Fortinet FortiGate** line combines the FortiOS™ security operating system with FortiASIC processors and other hardware to provide a comprehensive, high performance array of security and networking functions including:

- Firewall, VPN, and Traffic Shaping
- Application Control
- Intrusion Prevention System (IPS)
- Antimalware
- Web Content Filtering
- Virtual Appliances
- Virtual Domains
- IPv6 Acceleration
- VoIP Support
- SSL Inspection
- Layer 2/3 routing
- Endpoint Control
- WAN Optimization
- Antispam
- Vulnerability Management

High-End Appliances

Fortinet's industry-leading, High Performance Network Security Platforms deliver Next Generation Firewall (NGFW) security with exceptional throughput, ultra low latency, and multi-vector threat protection that make them the ideal solution for your most demanding network enterprise-class environments.

Mid-Range Appliances

Our family of proven, versatile High Performance Network Security Platforms enables you to find the right blend of performance and price to meet your unique requirements. Fortinet offers you more models and security technology options than any other vendor on the market.

Product Models	FortiGate 200 to 1000 Series
Firewall Throughput	1 Gbps - 40 Gbps
IPS Throughput	8 Gbps - 450 Gbps
Max Sessions	1 M - 7 M
Session Setup Rate	16 K/s - 190 K/s

Desktop Appliances

You need comprehensive enterprise-class protection for your smallest locations, remote offices, customer premise equipment (CPE) and retail networks. FortiWiFi™ devices offer the advantage of acting as a thick access point, with integrated wireless functionality built in that provides visibility and control of all your wired and wireless traffic, eliminating potential security blind spots and the cost and complexity of a separate wireless network.

Product Models	FortiGate/WiFi 20 to 100 Series
Firewall Throughput	20 Gbps - 2.5 Gbps
IPS Throughput	20 Gbps - 350 Gbps
Max Sessions	10 M - 1.5 M
Session Setup Rate	1 K/s - 12 K/s

The Fortinet Advantage

Performance

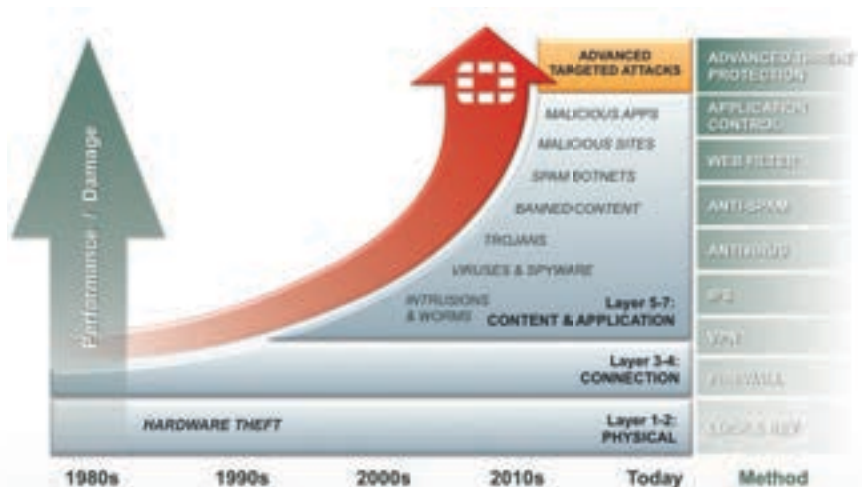

Fortinet's purpose built hardware and software provide industry-leading performance for the most demanding networking environments. Our integrated architecture provides extremely high throughput and exceptionally low latency, minimizing packet processing while accurately scanning the data for threats. Custom FortiASIC™ processors deliver content inspection at multi-Gigabit speeds.

Performance Enhancement with Multiple ASICs

Security

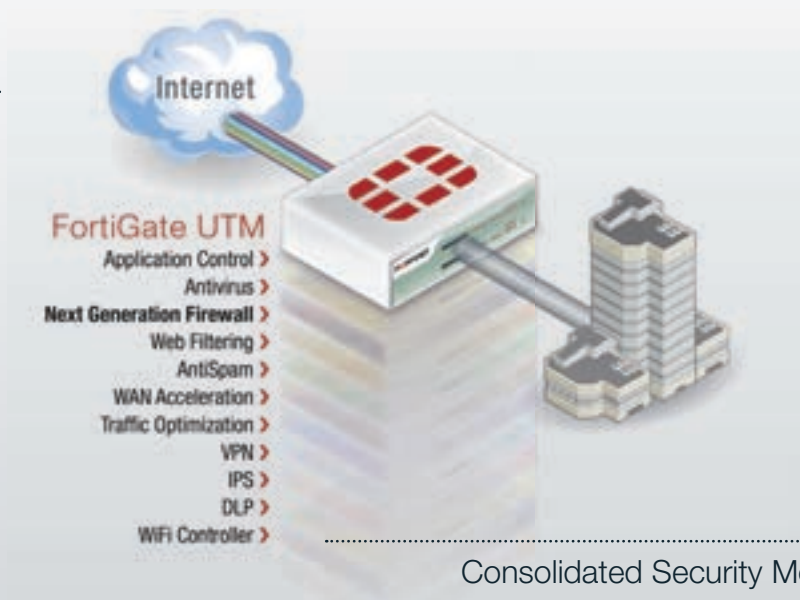

Fortinet delivers a robust set of signature-based, heuristic, and advanced security technologies on top of a core high speed firewall and VPN foundation. These include intrusion prevention, application control, antimalware, antispam, web filtering and more.

FORTINET Innovations Keep Pace with Industry Demands

Consolidation

Intelligence applied to deep content inspection across multiple vectors on a single high performance system presents many consolidation opportunities. Organizations rely on Fortinet for.

Consolidated Security Model

Security Solutions for Your Business

Defend the Enterprise

Fortinet's industry-leading Next Generation/Edge Firewall appliances deliver multi-vector threat protection with superior throughput.

Performance and Flexibility for the Data Center

Fortinet's high capacity Firewall technologies deliver the exceptional throughput and ultra-low latency you need while enabling the security, flexibility, scalability and manageability you demand in an edge or core platform.

Data Center Data Center Firewall (Core, Perimeter, VM)

Enterprise-Class Protection for SMB Networks

Fortinet pioneered the concept of Unified Threat Management (UTM) and gives you the most comprehensive range of Network Security functions available in a single, high performance and cost effective device.

Distributed Enterprise, Centralized Security

Fortinet's ecosystem of integrated security and management products operates together to secure your employees, remote offices, and corporate data centers.

Distributed Enterprise Unified Threat Management (UTM)

High Performance Network Security that Gives MSSPs the Edge

Fortinet products empower Managed Security Service Providers with best-in-breed, innovative security that fits any size network, from small and medium organizations to enterprise, data center and service providers.

Cloud/Carrier Carrier/MSSP Firewall

Security for Next-Generation Carrier Networks

Fortinet understands the challenges of deploying a next-generation network architecture that is able to deliver feature-rich, high-speed digital services efficiently and securely.

Fortinet Network Security Suite

End-to-End IT Security Solutions

The FortiGate family of physical and virtual appliances offers a wide range of deployment options to meet your unique network requirements. Fortinet solutions enable your IT team to manage, control, and protect your network simply and powerfully.

FortiGuard™

Threat Research and Response

Our FortiGuard Labs' global research team continuously monitors the evolving threat landscape. More than 200 researchers provide around the clock coverage to ensure your network stays protected. They deliver rapid product updates and detailed security knowledge, providing protection from the latest threats.

FortiCare™

Worldwide 24x7 Support

Our FortiCare customer support organization provides global technical support for all Fortinet products, with support staff in the Americas, Europe, the Mid-East and Asia. We offer multiple options for FortiCare contracts so you can obtain the right level of support for your organization's needs. FortiCare: 1-866-648-4638

FortiOS 5

The Most Powerful Security OS in the World

FortiOS 5 is the foundation for all Fortinet FortiGate integrated security platforms. It provides more security, intelligence and control to help protect enterprises with **more security** for fighting advanced threats, **more control** for securing mobile devices, and **more intelligence** for building smart policies.
